INTRO

From Whiteboards to Web 2.0 provides links to video tutorials on how to use the Web 2.0 tools described in the book. The tutorials cover both the technical aspects of how to access and use the tools and the language learning potential of these tools.

JUST THE WORD

'JustTheWord' is a very useful lexical tool that can provide help with writing English and choosing just the word. If you're learning English, 'JustTheWord' can justify your choice of words or suggest improvements - and 'JustTheWord' knows about some common errors made by speakers of other languages.

PADLET

'Padlet' is a virtual wall that allows people to express their thoughts on a common topic easily. It works like an online sheet of paper where people can put any content (e.g. images, videos, documents, text) anywhere on the page, together with anyone, from any device.

VOICE THREAD

'VoiceThread' is a totally web-based application that allows you to place collections of media like images, videos, documents, and presentations at the center of an asynchronous conversation. A 'VoiceThread' allows people to have conversations and to make comments using any mix of text, a microphone, a web cam, a telephone, or uploaded audio file.
